Lower heating element only:
This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.

Grill element:
This allows rapid cooking and browning of foods. Best results can be obtained from using the top shelf for small items, the lower shelves for larger items, such as chops or sausages. Cooking using this method should be carried out with the door closed, unless instructed to do otherwise.

Rotisserie with full grill:
These symbols allow use of the rotisserie with full grill.

Rotisserie + lower element:
the rotisserie turns constantly the food while the gas burner is working
